

# PM6 IC JR BLASTER™

## BLASTER™

### The Natural Power of Ozone

- 💧 Ozone ( $O_3$ ) is a 1.5 times stronger oxidizer than chlorine and many times faster acting.
- 💧 Ozone ( $O_3$ ) readily changes iron to rust particles that are filtered out of the PM6 IC JR Blaster™.
- 💧 Ozone ( $O_3$ ) also converts "rotten egg odor" into harmless sulfur products that are also filtered out with the PM6 IC JR Blaster™.
- 💧 Eliminates the need for chemical feed pumps on iron bacteria or sulfate-reducing bacteria
- 💧 No more mixing of chemicals like chlorine, hydrogen peroxide and potassium permanganate.
- 💧 Environmentally responsible and safe for septic systems.

**Hellenbrand®**  
What's In Your Water?™
